

# Practical Parenting Partnerships 2009-2010 Regional Workshops

## Organizing, Maximizing and Utilizing School Volunteer Programs

PPP recognizes how important parents and community members are to a successful school system. During this economically challenging time, it is more critical than ever, that schools capitalize on the value of active volunteers. This workshop will explore how to organize a volunteer program and how to keep it going and improving. Participants will gather ideas and find tools to use to put those ideas into plans and actions.

**Outline**  
Why volunteer  
Establishing a Volunteer Program  
Developing Volunteer Skills  
Working with Students, Teachers and Parents  
Management and Legal Issues  
Tips and Resources

Whether you are attending to gain resources for training volunteers or are a volunteer attending to be trained, we look forward to your participation.

Participants will be invited to share their success stories with the group during these workshops. Please join us for this great opportunity for gaining new ideas from both PPP staff and area school staff members.

We are pleased to recognize our PPP Certified Facilitators and Administrators at this year's regional workshops!

You too can be recognized if you have participated in PPP Implementation Training and complete the certification application. For more information, visit our website at [www.pppctr.org](http://www.pppctr.org).
